My time has come like many others. I've lost all interest in mods and the game Renegade altogether and that just spells out: "Bye Bye".

I can still be contacted via the contact info in my profile. World Wide Gaming will rise again in the future once things are all ironed out. In the meantime our staff is working in private (away from public eyes) on a new video game that'll be online and server-side so no downloads required. I'll say no more than that for now.

Thank you all for a wonderful experience in the community and a pleasant stay. I'll be looking forward to seeing Reborn released and testing it out, maybe I'll play there sometime. I might play APB still too.

lol, I hope you know Crimson runs n00bstories + n00bstories IRC, not just RenForums and RenGuard. I don't think she'll be "leaving" anytime soon.

Anyway, bye!

Those are reasons that are good. First, it's telling noobs what to do. second, it's killing Oprah. If it's anything like Star Wars, Tom Cruise will die too, eventually. and thirdly,

Locked due to everyone pissing on and spamming the thread (just like 90% of any threads that are started). I won't be surprised that when my death is announced, the thread gets Plecos-spammed.
