Galactic Nemesis is currently a work in progress. I am going to create my own online game using Java. I'm currently teaching myself Java and with my determination and drive I'll learn fast. However, I don't have a staff. If you know Java then I'd appreciate it if you contacted me and joined my staff. If you know how to use FL Studio then I'd appreciate your help too. If you can help out at all, or if you think you might be able to then please contact me. Even if you just join the 'Think Tank' and submit ideas for the game your help would be much appreciated. Benefits of helping include a free subscribed account when the game starts up.

He said he was quitting the Renegade community. He never said quitting the forum.

& About topic.. sorry I don't know the first thing about Java..

Same thing, but his name is "LEFT" so, that would suggest he has left...
