I quit palying the lame RTS C&C games after I purchased RedAlert the day it came out. Face it RTS basically get very old after just a few Titles and as far as "following" their lame ass plot lines, WHO CARES?...War Craft and Total Innialation pwned the weak Redalert which destroyed the C&C franchise dispite Renegades best efforts.

So who is the leader of Nod and should I care?

I am trying to warn Reborn not to make the same mistake so I needed to Register at their forums and needed KANE's correct spelling, MY GOD isn't he dead yet?

WTF?!! The topic has nothing to do with Kane (may he live forever). It has to do with a guy that has too may UNITLOST when he is playing.

Who is the leader of Nod? That question is ignorant and blasphemous.

I swear, do people know what storylines are and how to read them? I mean, it doesn't take a stretch of the imagination to realize that you can probably JUST FUCKING GOOGLE IT to get the fucking answer.

I'm tired of helping people who are too god damn useless. I know it's a simple question, but those are the easiest to find on web searches, too!
