Why not post the name of the song as well? I don't see this going well with people just posting

unnamed video links...only a matter of time before someone gets meatspinned

I don't think you generally will have to worry about that if people keep linking to YouTube videos.

Nice thread!

The most favorite song of ALL time is The Space Lovers by the Space Lovers. No other song can win over this over me on this. It has a very mesmerizing track...the kind of music and vocals that stick to your memory and don't leave.

I am not posting link to it because I am not sure if the Administration here would take it too kindly.

But just type "Spacelovers" in YouTube to watch. It's a great tune.

Another favorite song is:

Waiting for Tonight by Jennifer Lopez
<http://www.youtube.com/watch?v=VvNjtjLSobM>

And here's the uber-remix of it! Watch this!
<http://www.youtube.com/watch?v=4kIMfF6SziI>

I have many more but anything from DL.fm is beauty for me! I prefer Western music like Techno, Trance, Vocal Trance, Eurodance, and also Russian Techno. Anything with a nice tune, good beats, and sexy female vocals.

That's where i remember that song from! I've heard it around but never rememberd what it was from.

And The Rock is a good movie, i'll give you that, but it's not the best. War of the Servers is better than The Rock, in my opinion...

I'm not sure how "Fake It" can be anyone's favorite song. I love the song, but meh, I don't feel it's "favorite" material. Obviously, I don't speak for others, so I'm not saying it *shouldn't* be someone's favorite. I can't see it as being that "special", though.

Favourite song changes about as often as the wind.

I do know that I enjoy Cocorosie. In particular, werewolf.

If not that, it's probably something by Muse. Dark shines is a likely candidate.
