Hey all

Firstly i am new to all this modding stuff, i can not find everything i need. Secondly i was wondering if there is any1 that can either send me or write how to make a Server side Unlimited ammo mod for my clans server. Also this isn't a must but if any1 can also help me with a no reload mod i would really appreciate it.

Pretty sure there is a setting in ssgm.ini that allows players unlimited ammo.

Also to the guy that asked about the no reload, it ain't easy to come across thats for sure, maybe
there will be an update to this SSGM file in the future when some1 is willing to share there
discovery.

Thx for your help
