And in the LE, re-add the large blocker please... I tend to use that object a lot, and it's very useful. :/

Agreed, Renegade was made by Westwood, not Eat Artichokes. Unfortunately, since EA still owns the rights to the engine, they're the ones who gave permission/rights to the Reborn team to release it as a standalone, and my guess is that EA made it a requirement to include that opening video (correct me if I'm wrong, please).

^^Wrong. Reborn put it in as a sign of good will.

That makes sense. The Reborn team suck just as much cock as them.

sadly, no one listens to you because you are dumb as hell :/

Game is pretty unbalanced right now... Be sure to spam their forums so the unbalancings get some attention.

I sometimes ask myself this question as well... One thing's for sure: it's not for your eyes.

Maybe you remember this

I don't see what's stupid about trying to keep this place enjoyable for more than just a couple of people feeling this is the place to insult others and enlarge their e-penis. The only stupid part is that noone actually did it before.

I'd say splitting this from the Reborn topic is a good idea. It makes it so mindless Reborn bashing and actual discussion about Reborn are seperate

It's not helping. It's just frustrating everyone because it makes it harder to berate the people who deserve it.

OMG!

If they balance the infantry they will throw the vehicles in and it will be back to square one!

Save your complaints for a real release.
