ok i hade a server before but i lost it i stroed it on a disk and lost the disk so i started a new one

i have got NR and ssgm and lua and i cannot get NR to make me the owner or get the commands to work ingame

lua will not load to evan make codes and my bot on NR wont work the commands and modpart ingame or out of game

on irc it qkick cpjok to test but it says im not in game

A few things:

Have you got the bot connected to the FDS?

What version of NR are you using?

whats the subversion?

also... sounds to me like your renrem settings are fucked
