Care factor? 0.

Recon, you're a fool, and no-one believes anything you say. Your life must be great if you make up things this low.

Hope it gets better.

Love that picture.

Dreg, don't take the words of little recon too hard.

Ever since we aided him in destroying his reputation (which seemed to be his ultimate quest by the looks of his internet career), people take him for what he is: a nobody.

And now that it is official, being a nobody is obviously something that he has trouble getting used to.

So he seeks ways to deal with it.

Don't mind him. When he posts these kind of threads, it is actually him showing us all how small he really is.

1: English please? I barely got the fact you think that I annoy you.

2: I haven't said anything for a long time, except for "No comment. If it's not known what he's done then I'll let you find out yourself.". Wow, that's such a bad post, that will ruin your reputation!

Just so I don't embarrass you further, I'm not going to post the later posts. You can if you want, but you'll only push your foot deeper in the pile of shit you stand in.

Have a nice day.
