I was changeing some skins... updating my scripts then i played a map on practice...left then
loaded it again and my screen is black..... and i don know how to fix it...

Kah0s

look for shaders.dll and d3d8.dll in your main renegade folder and delete them, and for future
reference try using search.

renegade folder and delete them, and for future reference try using search.
Before doing that, check if you have any *.sdb files, delete them, and try again.
