I love playing on N00bstories,

But the host put me on ignore list.

What the hell is going on? What have I ever done to him?

I was healing arties in C&c Field and then he marked me for noob because I had no arty on my own.

they were all asking for engineers on the field, and then Crimson took his chance to mark me for noob.

I mean, come on...

Then on my screem appeared I was unable to get a reccomendation for tank support because I'm on the Ignore list.

I can't even remember when I had the last discussion with some one in the server...

Just because there are cowards and cheaters , doesnt mean the host has to be so cruel vs everyone playing and enjoying his time on N00bstories.

Check it out yourselves, my nickname is Houston.

I've been asking Amber (mod) what to do... He told me to go here.

So can you please put me off that ignore list - I know other players who should belong outside noobstories!

First of all, Crimson is a "she". And second, I doubt she would do that as she's fair...unlike most other server owners. Oh...this forums is run by her too...

Ok, that's great to know.

Unfortunately that's not correct - In Jelly servers they are much more polite and they don't ban or ignore you in 1 2 3.

But I choose Noobstories because the speed is better.

You deny me because you don't want any trouble and you simply assume I'm one of those members telling all the crap they can invent.

I'm on the ignore list for weeks now... And the only thing I do, is following the rules, running renguard and joining teamwork as it should be. And I got this game since it was released in 2002, so I'm not very much of a noob.

I would appreciate it if you could delete me from that list.

Now, noobstories.com is not helping much... What do I have to do there?

I can't make an account to post a discussion

I tried different e-mails to create an account... They keep saying I already have an account on that email ... But that's nonsense because I try email addresses that I use at work.

Please, post a message for me on noobstories forum to delete me from that ignore list... It's not fun anymore. I cannot give recs or gain them... Everyone asks me why I'm getting ignored.

mod FrumiousBandersnatch talked to me in teamspeak. He said it would be gone in a day or 2.

Now it appears that's not true.

Make an account on the main website first, then you should be able to login to the forums with the same user and password that you used on the site.

P.S. No, Crimson did not re-ignores you, grant89uk did.

Houston , we have a problem... And indeed I have once again  
It (still) says:

You already have an account on n00bstories.com! You certainly don't need another! ()

I even asked a friend to create one but he fails too.  
What can I do?

Ask them about it.

If grant did it then yes you have to talk to him. PM him then you don't have to be on at the same time.

Re the account problem, I'm getting that as well, but can't find any of nicknames in the users list. I think something on the forums is broken.

I had the same problem months back, I pm'ed Crimson and she changed something to allow me to register, I think it's something to do with IP checks and dynamic IP's.

Long story short he was getting owned. His team had lost most their buildings and we were overrunning their base. Basicly I was killing anything that moved and he n00bed me for no reason other than I killed him. Then he left the server to escape the repercussions lol.

So I recignored him on the server as his use of the command is tarded. Id like to point out hes not banned at all and has played on the server since.
