Sadukar is right...this place is the supreme craphole of the internets.

Only crap threads are being made with very few useful ones. The General section is full of crap. If you start a good debate in Heated Discussions, then retards come at you and tell you to shut up (hello wtf?).

The Modding subforum is pretty decent...some useful stuff goes on there. Tactics and Strategies is full of retarded posts and all "tactics" have been discussed already. The Clans subforums is mega-crap as well. A clan advertises itself and the next post proves they were using some sort of

cheats lmfao...or some flame war erupts.

The other subforums are too specific and small but decent enough.

And oh yeah, there's the symbolic retarded Spam subforum which pretty much sums it all up. This place is a smelly rotten shithole.

This place was awesome throughout last year but from the end of 2007 onwards till now, there has been a massive influx of retards. I blame it on many good members leaving/not posting as much and the incoming herd of retards.

Though as a throughbreed gamer I am proud to be part of an important C&C community (also playing the game), I am losing interest in the forums. But I will never leave and will keep checking back everyday. However, I will not be posting as much unless it is really worthwhile.

But you have a 99% chance of running into me in-game as I play using my "Starbuzz" nick a couple of hours everyday and also the nights on weekends. See ya in-game.

Yes.

It uses drawn images which have been animated via computers. It's anime.

I think you're getting Manga and Anime mixed up.

Yeah, the game was made in Japan and all of the drawings look anime.

What suddenly seperates that from a cartoon then made in Japan, eh?

Funny thing: The same thing was said in 02, 03 04 05 and 06.

What makes you think it was any better at the beginning of the year or any other previous year? You were merely part of the yearly cycle of tard warriors that float through here thinking any of this matters.

The forums became irrelevant shortly after Delphi handed them over mainly because the forums were an open forum of communication with Westwood/EA. After they disassociated and handed it over to a third party they became fanboy fodder for die hards and latecomers.

The great amusement of Renforums has now become watching you children beat up on each other in a seven year old forum no one cares about, if they ever did at all. Keep up the good work!

haha well said, Blazer!

I just hate the fact that Kirby with 259 posts who registered in July 2006 FEELS the addictive need to visit the forums all these years and then come out and bash other users calling them "tard warriors" and "children."

The internet is what it is today because it driven by human beings from across the globe sharing their thoughts and opinions on diverse matters. To say there was no point in hanging out here in the forum and having a sense of sub-conscience "closeness" is a statement that ignores what humanity is at the core.

Why don't you look up KIRBY098, and you let me know how long I've been around.

Edit: The forum tranferred here in 03. You'll have to dig around for the pre 03 stuff Chuck dragged over.

I feel the need to visit because I am part of RENEVO which came from the predecessor to this community and is still releasing products for this community that were in development while you were still trying to figure out how to use a keyboard. We keep tabs on what's new and occassionally help folks out with our older releases that are still being used.

And this just made me lol:

"OKKKKK Mr. Cool Grownup old generation self-righteous religous-minded drone.

Since you're so into humanity sharing it's beliefs I assume then that you'll be apologizing for owning yourself so soundly by slamming mine. Then again that would require humility, and I doubt there's an ounce of it you can spare.

I am not sure where was RENEVO in 1991, that's when I learned to use my keyboard.

Why the need for apology? You said something, I said something. There is no need to accept other views or remain in neutrality or follow some hidden rule.

So whatever cute little acronym you want to put on it, you are part of the problem, not the solution and this same conversation has taken place 300 times before by folks far less "challenged" socially as you are.

Here's the cycle: New guys come in, become "friends" and start arguing with the older ones, rack up posts on topics we've seen 400 times before (honestly, who friggin cares), start arguing, make each other mad, someone leaves, new guys come in, the last batch start whining about how it "just isn't the same" and how the new guys shouldn't post stuff they've already seen 400 times.

You aren't special, you missed the golden days of ren, the betas, the Westwood employees who used to come here, decent clan matches, great rivalries, and the drama that was ACK.

Soon, you'll create some flaming goodbye post and "punish" us by leaving. So let's skip the drama.

Just go.

hahaha Kirby! You are a real piece of work did I tell you that before? I never claimed I was special did I? LOL man you keep craping on yourself the more you post.

Some things you should know about me:

- I don't give half a asshat for number of posts
- I am here because I am
- I play the game because I am not physically handicapped not to
- I can post here on "who cares" topics because I can

There is nothing I feel like I have missed because I have was not here to "feel" those things beforehand.

And no lol, I am not going to "punish" you by creating a flaming good bye post! LOL @ your ignorance of putting everyone in the same children category. If I want to go, I will just stop posting. You keep assuming that I actually enjoy my "e-personality" that I have here lol. I am here because sub-consciencly I come here and I respond to posts I see here (who gives a damn if anyone cares or not?).

"Just go"? haha, you are mad. Let me punish you by staying?

LOLOLOLOLOLOLOLOLOLOLOLL

You apparently missed the quotation marks and inferred sarcasm.

I'm not surprised.
