I'm very pleased to announce that EA has dispensed Renegade's Source Code to me, and me alone.

In a few weeks I shall be releasing a patch which will eliminate cheats, fix bugs, and most importantly, create a new chatroom called "Spoony's Spyhouse".

Thanks for your attention.

Gosh, I hope you're going to increase Ramjet damage to light vehicles. They could stand to kill free infantry a bit faster too. Please don't ignore my concerns because you think you being in a "clan" means that you know more about Renegade than the rest of us.

I have a theory that people who complain that the Ramjet does too much damage, or kills infantry "too fast" are the same people who completely suck at games with realistic damage.

If it was anyone it would probly be reborn. If it was given to SirKane we wouldn't see it for another 10 years but it is more likely we would never see it from him.
