I am in Single Player and have just destroyed the NOD Temple, with ION Cannon. I really am enjoying Renegade and find it fun, but when I chose my difficulty I picked COMMANDO so now I am getting a little frustrated cause I am not that good. I just want to know how many more missions are left, should I restart game in Easy or Medium or what?

Ah 1. Blow up the Refinery and get security card from one of guys that dies.2. Open gates and let your huge tank in.3. blow Olbiesk and all turrets and stealth tanks4. go to other side of olbiesk and blow open the gate 5. then you are on foot and have to blow up construction yard, airstrip, heli pad, and tiberium pods then open other gate walk or run passed all the pad peeps to you tank then blow up the powerplant and comm center with tank then go back to the building with all the red lasers around it.

There is just one more level after the Ion Cannon one. The Ion Cannon blows up the Temple, you go in, clear out the temple, and save Sydney (some parts of the level are pretty hard)... and then you're done
