More Entrepreneurship homework that I'm forcing on you guys.

Anyway, we are doing something that has to do with demographics and interests and that sort of thing for the market that I intend to cater to with my nonexistent business.

So what I need to know are these things:

Interests, what are they?

Opinions, what are they as well?

Lifestyle

Activities, what do you do?

Once again, this is for homework, so no derailing Madrockz, bluethen, rocko, or renalpha

Does this research of your focus on any particular (non-existent) market? Because not I could give like any answer to this questionnaire, and it would be totally useless to you.
