I know SP is certainly not strong point of these games but which do you think is at least more interesting? I vote C&C renegades SP, it even has a 1-5 star ranking system

Required:-Hotwire/ Technician-Friendly unit (prefered cloaked)-a little teamwork-(prefered)
Friendly Fire off You go and put Promixity mines and/or Remote Control mines on the friendly unit, after you're finished (You CAN put mines on units, even infantry) then tell the friendly unit to just ram into an enemy unit (prefered a tank) and BOOM, mines just struck the tank without him knowing what the hell just happened (I tried this once and lowered with only 5 promixity mines half life for a tank, a lot more than any other thing could've done) Have fun! And tell me your comments

RTCW was alright, but Havoc's comments and the PA broadcasts on the last level make Renegade fun to play. [March 02, 2002: Message edited by: Vertigo]

I have had more fun playing Renegade than I did playing RtCW.

I have yet to play Renegade SP, but I didn't like the RtCW SP that much - shooting zombies isn't my thing.
