Trooprm02 is a fucking retard. Here are two major conflicts I had with him, besides the tons of the small things.

1. He stole my Crazy8 mod (nothing too special, I used it to host crazy servers, was fun sometimes), and claimed it as his own and that it's a +TRPM+ product.

I proved him wrong on many occasions and he still keeps going on "BLA BLA BLA U HAVE NO LIFE LOOK AT U TYPING ALL THAT STUFF", even though he's the one trying so hard to claim it as his own.

Here's a video he made about my mod and here's mine.

I asked him simple questions as to why it's called Crazy 8, and not Crazy 5, or what did I call the mod before this. He couldn't answer them. Everytime he cannot get out of his lies he just says

'LOOOL U HAVE NO LIFE LOOL' and then he spends his next few hours on thinking about lies.

2. He dodged me so many times in 1v1 that he finally decided to move on and actually PLAY ME, WOOOOOOOW. But...

So 1v1 Field, I am Nod, he has GDI (GDI is a bit better than Nod, but we were going to play both sides, tournament style).

So ok, I buy an arty, he gets an mrls, we fight, I take out a total of 1 MRLS and 2 MEDS with that same arty I bought in the beginning, then I move up to his base entrance, he basically has no money left, he buys a hotwire to repair. Even though he still has a 200 lead, arty's can catch up VERY QUICK by hitting his weapons factory, especially if he has no money for a tank (even if he has an mrls, they can't do much vs a good arty at their entrance).

So he goes all like 'IM LAGGING OMMGG, OOMGGG' then he takes a screenshot with 200 lead and leaves. Goes to the SMAK forums and talks about how he would've raped me if he didn't disconnect and he posts crazy formulas like:

TroopFAG
Quote:Keep in mind you HON was 1/3 too dead so enuf creds, thanks.
Me
Quote:1/3 life at hon? it was only hit several times dumbass, you have 600 points, you killed harvy 3 times, how can it be only 1/3 of life, BESIDES U HIT MY ARTY TOO several times, u got points off that too. 1/3th? Straight lie more
TroopFAG
Quote:I had just bought a MRL, and had techy=200+450+350=exactly 1000 credits=I would have kept rapin n_P.
Me
Quote:Since when does the amount of credits you currently have (both spent and in bank) define how you pwn?

lol k i had 1300 creds + 350 tech + arty 450 + I HAD FIELD + UR HARV WASNT BLOCKED = PRICELESS GG
Basically, if I use his method of measuring 'pwnage' I still out'pwn' him anyway.

But the funniest thing ever was how he was stupid enough to post a screenshot of him with a hotwire at his barracks with NO money, and at the same time posting my screenshot with an arty pounding his weapons factory, going to catch up heavily in points, supposedly trying to prove that he would've won anyway? (with 20 minutes to go too!)

Here's his first post in the topic he opened where he claimed that I lost, he also posts the screenshots proving that he would NOT have won:
Quote: he asks on msn for a 1v1, sure:
  http://img150.imageshack.us/img150/1424/screenshot155lg4.png

I basically already won, I was playing like ****, and so was he, but he was worse. I DC from gwserv, it said my ping was 0, and I was laggin HARD.

```

1422 07: 1444 07: 1444  07 |  07+ 15gwserv 07 :   11Player trooprm02 left the game
```

^^he says I dodged, I said I would gladly play again, called me a dodge again, saying I lost, and sent this:

  http://img100.imageshack.us/img100/3226/screenshot389fe2.png

^^I was just like wow...are you ****ing kidding me?

  http://img100.imageshack.us/img100/8114/tdmr7.png

Basically, why hate? Anyway, don't ****ing cheap skin, and if its a fw, play for ****ing ****, ffs, no need for suicide over a single fw loss..
As for that disconnect, he used F8 -> EX, causing BrenBot to show 'connection broken'. "I basically already won" -> LOL
