I like uber players who need cheats to have even greater uber skill even though they don't need it and it makes no difference. Silly people those uber cheat players are.

I would like to just say that all you who do not like the idea of cheats, DO NOT USE THEM! For all those who find it helpful then ,COOL, use and enjoy. You spent your money, its your game so how you use it is up to you. Do you really think the company who produces these games cares if you use cheats or not. Besides many people buy knowing they can get cheats to help them. I have a fast machine with a GF3 card and I have problems with areas due to frame rate, so a cheat would help. Seems the company hasn't issued a patch to fix it.

I'm up for an anti-cheating league, but what exactly could we do other than place it in our sig and maybe have a webpage with known and proven cheaters.

A wise man once said, "Attack him where he is unprepared, appear where you are not expected."My interpretation.. Appear down his pants and attack him there...
