i would just like to take this time to point out that reading these forums not only causes me great sadness. because you're all circle-jerking, too many of you think you're something special with your 'mods' and 'im a 3d modeler' or 'scripts' when in reality the majority of you are total and utter apes.

this doesn't strictly apply to this forum of course. its just i see how rife with morons this place is. who don't have a fucking clue.

i know theres going to be so many of you moaning at me and trying to create insults you think outwits me in some way. but the truth is... you can't handle the truth.

why do i post this? because as i did say the majority of you are completely retarded.

blazer and crimson, yeah they're not as utterly fucking stupid as just about everyone of you.

1 VS 1, blah blah penis wagging jesus fucking christ give it a break. i cannot express enough how fucking retarded this place is.

people like roshambo who thinks he is a prodigy of the computing world. and then theres all you 'modders and mappers' and 'look at my project'

and you're shitty signitures and oh god i can't believe i've been reduced to posting here but you're all such fucking morons. (some of you are okay, jake ball, goztow, blazer etc) but JESUS FUCKING MONKEY BALLS the stupidity is rife.

stupid stupid stupid stupid. i eagerly await the many mouth-breathers replies with poor poor insults or just an outright trashing of the thread.

hey why not post some fucking lolcats cause internet memes are so call. haha all your base.

the end.

Its something you just learn to ignore on these forums. As soon as you stumble upon a post that's

utterly useless, just ignore it and move on. Posting about how this forum has problems is just going to cause more problems, or you can just not view the forums at all; I'm sure that would solve your problem completely.

I can proudly say that I do not fall into any of those categories.

And all I have to say about this is: lol - If you are going to argue something, at least attempt to look intelligent while doing it. People may say grammar means nothing "on teh intarnests", but ignoring the basic rules can actually turn a relevant argument into junk. Of course, you would need to have a decent argument in the first place before even that would apply. All that you have spewed here is rhetoric, and you offer no evidence to support your claims other than what other people have said and that doesn't even tie in to your main thesis, let alone provided proof of your conclusion of what these claims infer.

The good news for other people here is that they don't even have to outwit you in their attempt to discredit you. You have offered no substantial argument that would need outwitting in the first place.

HAHAHAHA TZAR MIND! I remember that dude from ages ago. I recognize him from his long-standing avatar.

Message to Tzar Mind/any accomplices: You are a coward for posting insults from a new account.

Thanks Gozy.

EDIT: This dude has changed his nick several times...when I came here it was TzarMind and then he changed to Hogosphere in 2.0 or some shit like that. Now it's Ron Paul + new cowardly account to bash others in elitist fashion. What the fuck else does he expect from a video game forum with lots of young folk? Obedience, servitude and zombie-like discipline? I won't be surprised. If he wants change, then this forum would have to ban most of its users so only the quiet little mice remain. Then I guess all the "problems" would disappear + death of the community.

Down with fucking canadianias, haha I agree with the other guy. Renegade forums have way to much drama.

Renegade's glory days are still to come .

"Glory"5. Majestic beauty and splendor; resplendence: The sun set in a blaze of glory.

Renegade is gonna be the sun set in a blaze of glory.

Troop is utilizing the "If I can't see you, You can't see me" tactic on that thread. It effectively doesn't exist anymore to him.

Even though you suck at renegade, trying real hard to fake a win vs me while it was all 100% clear for anyone with half a brain to understand you would've lost LOL.
