I blew it up with an ion cannon I found. How do you get into the base?

Please be more specific. After playing 7 or 8 missions it's hard to remember something as brief as your description...

You go up the lift next to where there is 3 green door into a emergency room there is a door in that room go out of the door and you will enter the cut scene. Get the green door go down stair and kill all the Nod there then out the ramp into the base.

I have looked all over for the green access card, and I can not find it. Could anyone give any better info on where it is located at? I have killed everyone in the nod base and blow it up with the ion cannon. I can get to the area with 3 green doors, but can not open the green doors
