Yeah, I remember downloading this back when CnC-Source still had it up for download, along with a bunch of other neat alpha/beta videos.

I don't have the video without the voices, but I do have the original video from cnc-source (though it's still a tiny resolution mpg video): link

Maybe if someone asks LordMot, he'll be able to hook us up with the original?

Also, I still have a couple more of those pre-release vids from cnc-source, so if you want me to upload those, I'll do it later (gotta go to sleep now).
