It's not do***ented in the manual or read me - but if you hit the X key - you will do a 180 degree turn -- very effective when checking your six for enemies.If you know -- cool if you dont -- well - here ya go!

I know about it, I see it everytime I change my controls (usally just change crouch to shift and c to walk).the onlything, I don't tend to think of it when I need to use it.
