Hello all,

I am doing some basic skin work on the GDI APC. I am adding a person's picture and also some writing alongside. But the writing appears correct on one side...but on the other side it is horizontally inverted! So, I can't read it.

I have Photoshop 6.0. Is there a way I can make it so the writing appears correct?

Thanks for helping!

No. The unwrapping is mirrored and simply won't let you do it.

Noooo!! That sucks!

Hmm....anyway, thanks a lot for your help!
