hey, I have pretty much completed the ship level. I have all 3 security cards, and the POW's are near the submarine. The current "primary objective" is to protect the POWs. I have, there is no enemy left. How do i get on the sub? or exit the level??

Just run towards the sub and close to where you start. Computer will spawn new office near the sub. Please rate me better.

Unless you got the red card before the second one... The game will not let you finish the mission if you got the red card before the blue.
