Subject: Which IRC Regulator
Posted by Prulez on Mon, 14 Jul 2008 07:28:56 GMT

Like the topic says, which IRC Regulator (Like BR, NR, CS) Works best with Zunnie's Coopbeta 2.25?

I have tried the latest BR, but it can't access the console for some reason. The Renrem pass is correct, though. Also, it doesnt detect the SSAOW that comes with the Coopbeta.

Thanks in advance,
-Prulez
