I think when you have showTeamChatInPublicChan = 1 it only shows it the public channel so try setting it to 0.

tested , its not that :s

```
# IRC server to connect to
IrcServer = irc.the-brotherhood.org
IrcPort = 6667
```

```
# Username for BRenBot to use in IRC
BotName = [LB]
BotFullName = [LB] LBJames23's BRenBot 1.52
```

```
# IRC admin channel
ircAdminChannel = #LBgaming
ircAdminChannelKey =
```

```
# IRC public channel, leave channel name blank to disable
ircPublicChannel = #LBadmin
ircPublicChannelKey =
```

```
# Maximum characters per second to send to the irc.
ircCharsPerSecond = 8000
```

```
# Adds [BR] to the front of all IRC messages. Intended for compatibility
# with mirc bots which parse BRenBot messages and expect this to be there.
prefixIRCMessages = 0
```

```
# Shows team (F3) chat in the public irc channel. Only has an effect if
# you use the public channel and teammessages module is enabled.
showTeamChatInPublicChan = 0
```

I see the problem it seems you have those reversed, #LBadmin should be set as the admin channel and #LBgaming should be set as the public channel so it should be like this:

```
# IRC admin channel
ircAdminChannel = #LBadmin
ircAdminChannelKey =
```

# IRC public channel, leave channel name blank to disable  
ircPublicChannel = #LBgaming  
ircPublicChannelKey =

I'd say that your IRC channel specifies you need voice to write in it and you didn't give voice to your bot?
