Please fix wall hugging glitch where you cant see the players that pop out and shoot you....

i mean its such a noobish pussy bitch thing to do and its funny when people talk about how good and pro they are just cause they can hug i mean who cares if most snipers hug to bad its a glitch that needs to be fixed they need to get some skill

so well you guys fix this glitch?

This is more of an issue with the solution of "you need to suck it up and get used to it because we can't fix the netcode".

It's a problem with the netcode rather than another glitch I think. It can probably not be fixed with what we know about it now.
