Hey,

ive got a problem when starting the renguard setup.

when i start the setup i get an nsis error telling me i can't install renguard.

can anyone help me solve this problem?

Did you try downloading it again? Only download it from renguard.com .

That's interesting. If I were you I would run a check for viruses and other malware.

checked it out nothing on my scanners and i found nothing fishy.

is it a possibility that my firewall blocks it without notifieing me first?

tried to install it directly from the internet and it worked

always used save as but then i got the error now i tried to open it directly and it started to install.

thnx for the help guys
