Hi. I go to AtomiX Gaming server the most(then n00b servers). My Ren name is Ludichris1. I like Nod the most. I sometimes buy vehicles for other people and usually don't use the Ctrl, Alt, or Ctrl + Alt commands. I know a good deal of ! commands though. Some people I know and of some are my friends, are MUDKIPS(moderator), Anceint0, AgentZero, mretry,(whatever the rest is)and some others that I forgot there names . I usually follow to the occupations of repairer of light gunner. I don't like snipers and usually don't use Nukes or heavy infantry. Tiberium people are not common with me. I don't use flame or light tanks or heli transports that often. I use apaches, stanks, artys, and sometimes nod buggies and APCs. I usually don't go inside a friendly vehicle unless it is an APC or the sort or for cover or transport. I usually defend and repair the base better than destroying the enemy's base. My favorite places are Complex, Walls Flying, Field (especially Field and Walls Flying), and City Flying, and Islands (as long as I'm winning) That's all for now and you'll probably see me momentarily during the weak (I would be going on much more if I didn't have to ask my brother if I could do it on his computer because mine don't have internet). That's all for now! Feel free to ask me questions, tips, hints, cheat commands,(not cheats) or some of my n00b stories!!

Because apparently he's only 13. I figure give him a chance, but I won't be surprised if your "sixth sense" is correct.

By the way, welcome.

Ageism is a lot more viable of a prejudice than racism or nationalism.
