I know that people think that those that use cheats are crap, this isn't always true. I personally finish games and then look for ways to make them more interesting. Sometimes I just put it on a harder level but that easily gets boring. I like to get some cheats and then restrict myself in other

ways. e.g. I get and unlimited health cheat but then I try to do a few levels only using one weapon, or I'll try to do the entire level by walking backwards. These may seem like silly ideas but don't knock em till you've tried em. If you have finished the game, try doing this, it is great fun. But I haven't found any cheats for renegade. There is a lot of hype about a hidden, removed cheat menu and stuff but has anyone actually got any cheats to work?

Mods, Cheats, what is the difference? Why do people think they have a right to tell others how to play?
