OK ladies and gents boys and girls, i finally know my ranking, its not bad for a newbie, considering i just started.

I'm am now ready to take it to the next level, i am ready to choose a clan , i want to join a clan but don't know which to choose from their is so many, names usually grab my attention, but i want to join a clan which doesn't require me to give away my password to my account.

anyways promote your clans on this page, if you are recruiting, this may help your numbers a little and you may recruit someone who owns

GOOD LUCK

Snake (Guyver91)

From my experience, good clans find you and not the other way around.

The eXiled Coalition is still recruiting. We are a very active clan that usually hangs around Atomix Gaming. You can check out our forum, site and Wiki if you want.

For a terrorist organization, NOD is surprisingly 'white' .

I can say that Baptised By Fire is recruiting right now.

BBF doesn't only support Renegade, we have some of the newest games too and many more, including WoW.

Here's the website: [www.clanbbf.com](http://www.clanbbf.com)

And no, there are no needs for your account password.

I cannot see why.
