Wow, lol. I wonder if they know what RR does? There's some servers that only let you play there if you have RR...

EDIT:

Maybe if you said you use Renegade Ressurection in-game,(it does kinda sound like a cheat..) some nooby mod would think OMG HACKOR and would kick or ban or whatever.

You should of, in turn, asked them about Renguard. Ask them if they ban people for using Renguard, because it is a 3rd party program. Or XWIS, because that is a 3rd Party program.

You have two choices:
1. avoid this server with what seems to be a stupid moderator (which should be easy)
2. go to the server's forum and ask about the ban

Not everyone can know what RR is, especially as it's not very wide spread. Posting this here is quite useless.
