Hi.

I need help.

I have BRenbot 1.52. When I started my FDS, it gives me error: FATAL ERROR: Can not write to ./log/biatch/main.txt

My BRenBot works fine in IRC. I just cannot start up my server. Can someone please help? Or perhaps is there a way to disable Biatch to stop this problem?

Thank you.

Regards,

Fort

Create that directory and the file. It will then work.

Thank you but where do I create this directory to?

Westwood\RenegadeFDS\Server ... ?

[EDIT] Thanks. Its working fine now.
