This is without a doubt one of the coolest PC-Illusion, I have seen so far.

Follow the instructions:

- 1) Relax and concentrate on the 4 small dots in the middle of the picture for about. 30-40 secs.
- 2) Then, take a look at a wall near you ( any smooth, single coloured surface)
- 3) You will see a circle of light developing
- 4) Start blinking your eyes a couple of times and you will see a figure emerging...
- 5) What do you see? Moreover, who do you see?

I'm actually seeing Teddy Roosevelt here and he does not look amused.

All I see is that brown-haired, blue-eyed guy that everybody keeps mistaking for Jesus because the Church wanted him to look more European...

In all seriousness, optical illusions are fun to play with. My favorite ones are the identical objects made to look different in both size and shape by hashed lines and color variation.
