hello everyone! i'm stuck at the submarine. The game keeps asking about the submarine security card that I have to take of the ship's captain. But i've already got all the 3 cards, the red , the yellow and the green card so my question to you is: what the hell must i do to complete this level! Please react soon greetings Frank

If you have all 3 cards you have already killed the captain. if you haven't patched the game it will not let you finish the mission if you kill the captain before you free the prisoners. after the patch it doesn't matter.

Since you've got all the cards you've already killed the captain!!! Have you sabotaged the torpedoes yet?? if not go to where the sub is and go down a level till you find a yellow door. If you've already done the torpedoes then just go to the prisoners with chainguns waiting for you at the sub
