Awww, pity. My join request was denied. I'm still samous. O well... Sry about being gone so long, home work and clan joining takes a while. Also, i'm almost finished with my C-130Installer, i have added more than 20 mods to it! and all the read mes are also in there now! Not too much more time till I release it. I'm still working on my mod that para dropps the veh, but no matter what i try, only some of the veh will work! And my pictures for the Atl4ntis server are still being taken. They where delaied due to the server crash, and how W4ARNING had to get a new motherbord. Many new picture will e released at least by the end of this month.

Banned both of the impersonating accounts (not the original accounts). If someone finds it funny to start this joke over again, they'll also get their original accounts banned.

This isn't kindergarten...
