Hello everybody this is N1warhead again.
I have finally got my PC working the right way to support renegade again.

My PC had stopped working on games, even games like Duke Nukem 3d!!
It would overheat and shut off, even to some websites.

But now, I may start back up on Plastic Revolution, if y'all want me too?

Need your opinions, it's up to you all. And if anybody will actually help.

Hehe I bet you do .
Now if I do start back up on it, it won't be my main goal pursae, because I'm a leader of a
Nationalist group (United Brotherhood) and it's my main focus, but yeah.

This mod if people still want to play it, I will start her up again.

Well I'll tell you all what.

If some people would be happy to lend me a hand with some stuff, then I will work on this mod.

As I have previously stated, this mod isn't my top concern, I have important stuff i need to get done, but I'd really like to only make maps. That's it.

So, if you all continue to wish this so, I will gladly work on mod, but only if people decide to give a hand in this. Out of years making mods and stuff, I have never had a hand in making anything with my mods, it's actually quite irritating seeing all these people working on mods, saying my mods are good ideas, but in return want nothing in developing it.

Well I might start working on it again tonight. If not I will definitely start again on it tomorrow.

But as I have clearly said before, I only want to make maps. And that saying, and I sticking to my word. Now I may do some menu editing and what not, but I don't want to over indulge my self if y'all know what I mean.

But I will let you all know when I start working on it again. For all I know I may start up in 10 mins, but I will certainly let you all know .
