For some reason on this level you have to press enter to get Sydney to do stuff. Try and talk to her and Havoc will tell her to hurry up and she'll say she has to disarm this nuke. After that run up the stairs and ure finished. Uve almost clocked the game... What difficulty u on??? out of curiosity.

Hi guys!! I know some of you beat game at least once...I need your help. In that mission where you have to save Dr. Mobius' doughter you got to sabotage a nuclear missle. Well when I get on top to that little control table...I can't do anything to it. I tried to blow it up-did't work. I pushed the use button-nothing happens. In other words I can't sabotage the missle to complete the objective. Plz help. Thankz
