My newest modification for Renegade. I redid the interior of the GDI barracks. There is a pub inside, slotmachines and a dancefloor with music! Also some funky lights finish this barracks.

Check out the video. Made by Scrin!

Only the TV's in the back aren't included (its in another topic)
and the havoc inside the pub uses the skin c_havoc.dds. so depends on what you use normally for it.

Put the music in renegade settings to the max to hear the music played close to the dancefloor

And ofcourse it WORKS in internet games.

Wow seems like some people have bugs with this modification. i am affraid i dont know the solution for it

If some more people have problems with it please tell me, i might be able to fix

EDIT : I might have found a possible solution. Download the FIX in my first post. ADD those files to your data (click yes on replace)

MUST have all other files still in

madrackz wrote on Sat, 25 October 2008 07:26LOL thats awesome, how did you got hat PUB in the MCT Wall? better say how did you remove the wall?

Just edit mgar_int_n.w3d then boolean the big box that normally is closed from all sides.

I got a tip for editing interiors by the way.

Open up mgar_int_n.w3d Save the gmax scene. Delete all the meshes. Then save as mgar_int_n.w3d (nothing will be in there) Then edit another file like mgar_ag_1.w3d. Merge the mgar_int_n there. And add more stuff. The names dont matter anymore then. So save again as mgar_ag_1.w3d and you will see all the mgar_int_n.w3d files will still work properly

I hope you understand rackz. If not then i might be alittle bit to drunk

EDIT: Hadn't said this yet, so... I watched the video and I think you did an awesome job on this, great work!

Suggestion: perhaps it's only for certain maps that this error occurs?

not shure, there is only one link, and i jts now downloaded it (i think bugfix). Also, could you add this skin for havoc to the barr?:

Thanks. Is there anyone out there who could convert this tga file to dds, my dds converter converts it, then when you play, the converted texture appears all black.

No! Real men smoke cigars, lol.

EDIT*3:If the above statement is tru -anyofthem- i'm not a real man then, i don't smoke.

EDIT*2: Reminder, this ios my first semi-good skin i have ever made, and all i use is paint and like 20 different pictures, so it will suck.
