i would give it an 8.5, but it would be a 9.9 if you made it less dark.

ok, 9.5. When you finish it, i will give it a reall score, not just a fun score, where no one really belives would be the real score if this was a real grading thing.

=samous

(maby it would be a good tib flechete gun, could you make it that?)

As said, needs some more detail. Namely, a trigger, and ammo clip.

in real life, i would grade the MAC as a 8.65, and the FAMAS as a 6.98. (out of 10)

Still, that's pretty high. I would give it 2 b/c it's awesome.
