Thought I will share lol...these are all my collections for Renegade that I have got over the years. Never really showed anyone so I thought I would share.

I have these so far:

- Renegade Prima Strategy guide
- Original Renegade boxed game
- UK release version (I think)
- 1 Havoc action figure (with Raptor assault rifle, Raveshaw Railgun, and our one and only pistol, and stand)
- 2 Whorcas
- 1 Stank
- 10 GDI soldiers
- 10 Nod soldiers

The boxes for the Havoc figure and the original box art for the game are awesome and fold out with some nice pictures and beautiful artwork.

When I finally had the money to buy this game on one cold frosty night, I would never have imagined that I would spend so much money on the game buying collectibles but THAT IS HOW GOOD this game is and how hard it is to just leave it alone! Probaly the best FPS ever freaking made.

I am still missing the Mammoth tank and the Flamer and some T-shirts lol...but I have my deadly fox eye out for them on the internets.

Some kool pics!

THANK YOU WESTWOOD FOR THIS AMAZING GAME!

Beautiful

I've been playing since the demo, but I've got nothing C&C Renegade related here except for my disks. I don't even think I have the box anymore.

Thanks all for your nice comments!

@reborn: Yeah, it adds to the detail. And inside there is a very detailed sculpted pilot figure similar to GDI pilots from TS (straight down to the 3 faceted helmet visor!). I will try to get a pic of that though it's hard.

@ RoShamBo: The Stank/Orcas/Soldiers were bought as they are...I am glad they did not have a single scratch and they even smell like new. The Havoc figure I don't want to open ever!

I keep the vehcs and soldiers well packaged. I took them out of my giant box only for these pictures. They are back in there safe!

@TehstormZ: NP! I will post more pics.

I don't lol...I want to keep it in the package. But I feel very tempted to open it and play with the guns.

Hitman wrote on Thu, 06 November 2008 10:53 how much for that strategy guide?

You can get it for like \$20 in eBay if you find it.

All these you can get from eBay...you just have to look each day and search for it. You get lucky sometimes running into these things on eBay...just have \$200 minimum in the bank lol.

Also the Orca is definitely the sexiest thing in that collection. Always wanted one.

WOW! nice you now have the flammer as well as another Stank and 3 more Orcas? And loads more people!

Have you considered to get the Original Renegade Game case?
It is 10 times better than the Sold out Software case.
And also that SS case kinda sticks out in your collection, it doesn't really go with it.

Check mine to see the difference between the 2 cases.
With the original case you get the instruction manual and 2 shiney CDs.

And if you wonder why I got 2 cases well my original CD has a crack on it for some unknown reason.

You can see it here on the first row:

That case is the budget version that was released in the UK a few years after release.

You can basically pick up lots of classic games on the sold.out range for like £5.

So not really the original case.

I'll upload a pic of the case I have.
