Long game joined in the middle...no Hon, AS lost minutes later - couldn't help it. But kept repairing stuff. Only Obby and Ref.

I then stole GDI APC first but then gave it to teammate after I jacked a Med.

Then this cheater blows up my Med just like that.

Endgame screen:

I will post in n00bstories forums too.

EDIT: Case solved. Complaint terminated.

You got no real proof expect a message that proves nothing.

Was there any C4 that might of lowered your health to something shootable?

You know? I mean like he could of been shooting at you, then C4 went off leaving a very tiny bit of health left, and his autorifle just took that out. All within like a split second, so it would be hard to tell.

But that's just alternative thinking. It does look a bit suspicious.

«19:32:18» {phpRenBot} [12/50|60SFPS|Field] [C4]: GDI Timed C4 has detonated (Owner: mrmoo500 - Attached to: Flamethrower)

«19:32:19» {phpRenBot} [12/50|60SFPS|Field] [Vehicle Kill] GDI Medium Tank (Passengers=OBAMA, psycoswed) destroyed by mrmoo500 (GDI Minigunner/Auto Rifle)

Ouch LOL, psycoswed must have been entering the tank as the timed C4 attached to him exploded. GG!

You know, it probably would've been a way better idea to go on the NS forums first, instead of making this thread. Threads like this are just open to flaming, and all that other crap.

Plus, what happens if it turns out that no cheating occurred?

Yeah, stop being sexy, nikki. You're going to make the renegade forums a target for furry trolls.

Wait, you mean my randomly thought up abstract reasoning as to what happened was actually what happened? Wow! It's not like that has never happened before!
