I HAD to respond to this thread because I went ballistic yesterday when Hell March started playing while watching Top Gear. It wasn't much of the track but it sure made me smile.

Top Gear is my new addiction and I haven't found a cure yet other than more Top Gear.

If you want to watch more Top Gear and don't want to bother with torrents or CrapTube go to <link removed by moderator: copyright protected material>

lol Interesting. With Firefox, it tries to install Zango, and that's probably what that crap is. With Chrome, the link goes straight to the video and NOD32 runs into nothing. It isn't a site I'm familiar with... I just ran into it. I apologize.
