It doesn't have to be based on uber powerful dual cannons of that. Just a vehicle you have most fun using. I would funnily enough say the MRLS, when on lan servers or just on my own or a quiet server I like to loop a few rockets round the AGT just for fun. Dumb guided missiles FTW!

Speaking of Trans Helis. When on Wall Flying, I only feel of use when I offer to transport infantry to the mountain like peak. I also like to flatten infantry in air vehicles =DDD \*SQUISH!\*

Given the situation you're in, the type of vehicle would be best for that job, soo... Stealth tank for my ground vehicle, and the Apache for air vehicle. But the long range mofo's like MRLS and Arty are great for bombarding enemies from afare without "fear" of retaliation.

I know there is a vehicle for every situation, but what is 'your personal favourite' vehicle in renegade? Unless those are your personal faves. \*meh\* beats me lol!
