Makes me wonder if EA will be calling the TT patch unofficial or not when the time comes...

TFD Renegade never required a DVD to be played. CP2 even used the Ren exe provided with TFD as no cd patch.

Nice to see this, though. I expect the TT patch to be announced in the exact same way.

That's funny considering I try to play a game off TFD (other than Ren with the no cd patch) without the disc and it slaps me in the face with: "Please insert the cd" bla bla.
