i use bb 1.52
Database is out of date, updating to latest version...
  Running updates for BRenBot version 1.43...
    Doing updates for build 18...
      Deleting redundant table version...
DBD::SQLite2::st execute failed: no such table: version(1) at dbdimp.c line 412
at brdatabase.pm line 63.
      Deleting redundant modules teams and seen...
    Doing updates for build 19...
      Updating several module descriptions...
    Doing updates for build 20...
      Flushing bad data from the globals table...
      Deleting redundant table seen...
DBD::SQLite2::st execute failed: no such table: seen(1) at dbdimp.c line 412 at
brdatabase.pm line 63.
      Deleting redundant table joinlist...
DBD::SQLite2::st execute failed: no such table: joinlist(1) at dbdimp.c line 412
 at brdatabase.pm line 63.
      Rebuilding rg_stats table...
    Doing updates for build 21...
      Deleting redundant tables gamelist and playerlist...
DBD::SQLite2::st execute failed: no such table: gamelist(1) at dbdimp.c line 412
 at brdatabase.pm line 63.
DBD::SQLite2::st execute failed: no such table: playerlist(1) at dbdimp.c line 4
12 at brdatabase.pm line 63.
      Deleting redundant module htmloutput...
    Doing updates for build 24...
      Deleting redundant modules vehicle_purchase and killmsg...
    Doing updates for build 25...
      Moving logs to logs table... this may take a few minutes...
DBD::SQLite2::st execute failed: no such table: banlist(1) at dbdimp.c line 412
at brdatabase.pm line 63.

If it's a new installation simply delete brenbot.dat and make sure you run BRenBot at least once
before using brLoader, the older versions of brLoader caused problems by creating a blank
database file.

If you need to keep the database manually edit the globals table and set the version to 1.52.

I don't know if it's a bug or not, but either way it won't be fixed due to RenGuard support being
discontinued in favour of the new TT patch. The IRC interface has the correct RenGuard status in
the !pi command, and you can disable the !rg command via the commands.xml file if it really
bothers you.
