Hi all, I start Renegade up and click on Multiplayer Internet, then Advanced Games listing's and bandwidth is tested etc. But I cannot get to the ADL page, I wait to login but a message comes up saying "Cannot Login, Cannot connect to Westwood Online".

P.S. Went on Ren last night and noticed that all servers had 200+ speed, wondering if this may be problem....

See this: http://www.renegadeforums.com/index.php?t=msg&th=31118&start=0&rid=2 1525

Also 200 ping is perfectly fine, 300 is where it starts to get bad.

I notice you live in the Uk or somewhere around there, a lot of servers as far as I can see are in the UK, but don't be surprised to see high ping, renegade is a fairly old and bugged game(luckiy it's still playable though).

What happened to the original Westwood ladder now we have a modded ladder.

It went down when WOL went down.
