Title says it all, so you dont have to tell me that its advantage, and so this doesn't have to placed in Heated discussion forum.

Allright, I am releasing this because of many people asking for it so here it is.

Made by Scrin and I.

Considering your target demographic with these skins, you may want to consider the color/shape of firey red donges.

Advantage skins. Good grief.

How do you make an object glow...? Is it through the skins only or you need to make seperate textures? I won't use this but thx anyway!

I want to make certain parts of my vehicle skin glow like the headlights and taillights.

I can't believe you just did that. From scrin I could have believed it, but from you?

You both get a warning for posting cheats. Don't argue on this one, your topic title is more than clear enough about your intentions.

If you ever post anything close to this again, you will be a ban of a few weeks.
