Hello all.

I have been pretty busy in my life lately, so much going on, but am giving myself some time to add new skins to Game-Maps.NET

If you got any new skins for the last two months, please send me a private message with the download links.

I will then start adding them to the site.

4 of you should have already got messages from me as well about this.

Merry Christmas.

Here's a picture of my New Stainless Steel Obelisk!

If you put it on game-maps, I would be honored

If you could credit it to "slosha69" that'd be great. That's my main alias in case you're wondering. If you need prove I'd be happy to show you.

Download is in this post of course

I posted those Tron skins on Game-Maps forum (if you want to add them, please just add 1 color for each side so as not to clog the listings, but mention I will make other colors if requested).

Thanks! I appreciate it

Game-maps started as MP-Gaming's file repository, the forums are still hosted on MP's site here.

Perhaps I said that wrong.

If you go to Game-Maps and click the link at the bottom where it says 'click here to post your own skins', that's where I posted them. Yeah, it's a section of MP-gaming.
