He approach from the side without C\$ and he will able to steal the tank.It is a waste of proxy and money. I can do soooooo much damage with proxy and conside this tactic as a waste of 30 C4 that can be used.

The guy will see the C4s and walk around Unless you're waiting back with a sniper then you just lost a tank.

I don't think anyone really wants to know how to, I mean it's not like a pistol or C4 have the range to make it useful.

Ok, i'm not sure if everyone knows this or something, but when I am playing with a sniper.. I can make the scope go onto anything. I can have a scope for the c4, pistol, anything.. except tanks. But its a wicked little trick I know and I use when I am not having a hot day. I thought some people should know. (my pal knows too, not really a cheat but it can help)

A good idea when in a multiplayer game is to buy a vehicle, go Hotwire, plant proximity C4s on it and park it where an enemy is likley to be. The enemy will hopefully walk up to it and BOOM!

1: Waste of money2: The player that gets in the car wont even take damage when the car blows up.. He will just fall out of it and think: "Okeeeey?"
