Yeah, it wouldn't surprise me at all if Schwarzenegger made a cameo appearance.

I saw a preview for it at "the day the earth stood still" (a horrible movie btw) and it looked pretty bad ass.

On a side note the new Star Trek movie comes out that week too.

Was a horrible movie, "lets all hug a tree and save mother earth" crap.

I'm a Trekkie ,\W/ and a Termenegger.

Well why not!

The question should be why is Hex's head on the dead terminator.

More like Nod Venoms from C&C 3...but yes, EA did take inspiration for the Venom from the Skynet Aerial Hunter Killers (which is pictured in that poster).

---

This is great news for me. I am one of the biggest Terminator nuts! The Terminator series is something I cherish since it was the first ever movie (T2) I ever saw in my life! I have so many collections/memorabilia of Terminator movies. I felt disappointed with Terminator 3 but always wanted a movie where it is set in the future where bands of humans fight against the bastardly machines...and I very happy such a movie is being done!

I just hope they don't screw up on the writing. The cast is awesome choices IMO...they look so similar to previous Terminator movie casts. They are even bringing in a Arni-look-a-like from Europe!
